

Can we have SHIAs as friends?

Q: Are Muslims allowed to have Shia as friends, socialize with them etc. Are we allowed to be friends with Shia, even though their beliefs contradict the teachings of Islam. JazakALLAH Khair.

A: The ruling regarding associating with Shias is the same as associating with non Muslims.

"A group will emerge soon who will abuse my Sahabah and endeavor to find faults in them. As such you should not keep their company, nor dine with them nor have marriage relationships with them from either side. You should not greet them either. The curse of Allah be upon them".
