

How many SHIA cults are practiced today?

Q: How many SHIA cults are being practiced in the present world? What are the differences between them and which parts of the world do they belong to? Are all Kafir? I hope you have read my question alhamdulillah I have no doubt SHIA is Kufr but some of my friends in London say that not all SHIA are Kafir and most of them are Muslim please give me a detailed answer. I will be very grateful and InshaAllah Allah will give you the reward of your good deed. Allah Hafiz.

A: We are aware of the un-Islamic beliefs of the mainstream SHIA sect, the Jafaris. If any other SHIA denomination shares similar beliefs as that of the Jafari Shi'as, they too will be regarded as Kafir.
